If you would like to open the windows, please close them again after 5 minutes, because the water pipes can freeze (Swedish houses have very good ventilation without opening the windows. Do not leave any door and the garage door open or unlocked.

If it is too cold/hot or if the heating is not working as it should, please contact house owner. Do never adjust the settings of the heating system on your own. The house will be cleaned once a week, with changing of towels and bed linen. If you need some extra towels, please contact house owner.

If you need to hydrate the air in the house, put some glasses with water in the rooms. Do not wet any towels and hang up. Wet towels destroy the floors and can damage the furnitures.
